

## Nurse Practitioners

# 130,000 +

**File Description:** Peak has created the optimal database of Nurse Practitioners. NP's are advanced care nurses who actively treat patients. They are unique in that they can prescribe medications. This database is updated monthly.

### Specialty Selects:

- |                    |                        |
